1. The following is an examiner's statement of reasons for allowance:

The prior art is replete with methods of cell-free synthesis of proteins and methods of optimizing the reaction conditions. During such optimization the proportions of reactants are varied, and during the reaction reactants are replenished, however, the prior art contains no teaching to continuously vary the proportions of reactants during the synthesis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. An initialed copy of the PTO-1449 submitted January 16, 2002 is included with this Office action because it appears that it was never sent to applicant.
